

Do I Need to Quarantine?

You need to quarantine if you are **not up to date** with your COVID-19 vaccines. Being up to date means you have received all doses in your primary vaccine series and all boosters recommended for you, when eligible.

***If you test positive or develop symptoms of COVID-19, isolate immediately. See instructions for isolation at: dhs.wi.gov/covid-19/diagnosed.htm.**

What if someone in your household has symptoms or tests positive for COVID-19 and you are not able to completely isolate from them?

➤ You should quarantine while that person is in isolation AND for 5 additional days starting the day after the person with COVID-19 ends their isolation period.

What if you are not able to quarantine?

➤ You must wear a well-fitting mask at all times when around other people for 10 days after last close contact.

Do I Need to Quarantine?

You do **NOT** need to quarantine if:

- You are **up to date** with your COVID-19 vaccines. This includes all doses in your primary vaccine series and all boosters recommended for you, when eligible OR
- You tested positive for COVID-19 less than 90 days ago with a viral test.

*If you test positive or develop symptoms of COVID-19, isolate immediately. See instructions for isolation at: dhs.wi.gov/covid-19/diagnosed.htm.
